# Activity # 1

## Walking Water/Color mixing

### Materials:

- red, yellow, blue food coloring
- water
- paper towels
- 6 small jars or cups

### Instructions:

1. fill jars or cup halfway with water
2. add food coloring to the water
3. place jars or cups in a circle, alternating one cup with color one cup empty
4. Take 6 paper towels and fold them.
5. Take one end of the paper towels and place it in the colored water and the other end in the empty cup.
6. Place another paper towel in the empty cup and in the colored water.
7. Observe the color absorption. What colors did it make?

## Activity # 2

### Fingerprint Art

#### Materials:

- white construction paper
- paint or watercolor or finger-paint
- white sheet of paper
- scissors
- glue

#### Instructions:

1. Trace your hand and wrist on a sheet of paper.
2. Cut out traced hand.
3. On the white construction paper make fingerprints with any color you choose.
4. Glue the cutout of your hand onto the paper.

## Activity # 3
